

Pam Feinberg-Rivkin
RN, CRRN, CCM
Founder and CEO

“The special times we share with family and friends throughout our lives are like personal possessions we cherish and hold close in our hearts. When we become caregivers for those we care about most who gradually or suddenly need us due to injuries, accidents, surgeries and aging issues, we want to do everything possible to help them. But all too often, we end up needing help as well. If you are unsure about where to turn, uncertain about who to call, uneasy about what to do and unaware of the assistance available to you, Feinberg Consulting can help. Lessening the heavy burden on caregivers is what we do best to allow caregivers to do what they do best: provide love, support and companionship to their precious loved ones. From everyday details to extraordinary challenges, we are here for you.”

We are here for them...

“I cannot overstate the assistance Feinberg Consulting has provided for me and my family. They’ve made my role as an advocate far easier and, more importantly, far more effective.”

— **Larry Steel**, brother in Michigan

“Feinberg Consulting was the ultimate solution to the 500 mile distance separating my parents and me. I am ever grateful for their ability to step in with their knowledge, experience, contacts and recommendations when I am not there. Their rolodex of experts in home health care, visiting physicians, nursing homes, hospice, and elder care attorneys speaks volumes to their ability to be the ones I trust when it comes to the care of my parents.”

— **Vija Udenans**, TV network news producer and daughter in Maryland

“We faced unprecedented challenges when Mother became disabled. We found the expertise and compassionate attention to detail of the staff of Feinberg Consulting indispensable by enabling Mother to remain comfortably in her own home. We are extremely appreciative of their assistance.”

— **Pat Zacharski**, daughter in Vermont

“Pam Feinberg and her team of professionals provide exceptional care, expertise, and kindness to their clients. Feinberg Consulting is the pinnacle of the preeminent healthcare organizations I have had the pleasure of working with.”

— **Juan Harris**, MBA, MS, CAP, CAPP, SAP, CGAC, ICADC
Program Director, Center for Older Adult Recovery at Hanley Center in West Palm Beach, Florida

“My experience with Feinberg Consulting has been one of complete satisfaction. My case manager has taken all of my problems—transportation, rehabilitation appointments, doctor visits—off my shoulders and kept everything running smoothly. I couldn’t have handled this without her. Everyone has been so kind and supportive, which has been half of my recovery.”

— **Betty Korte**, catastrophic care client in Michigan

Tackling life's tough stuff...

When you love someone...

...you would do anything to help them live a happy, productive life.

Sometimes, however, love is not enough. Sometimes professional expertise is what's needed to ensure that your grandparent, parent, spouse, child, relative or close friend is receiving the care they deserve. Aging seniors may require safety modifications to their homes. Accident victims may need around-the-clock assistance while recovering from injuries. Children with developmental needs may benefit from an outside advocate to make sure they obtain specialized educational services. The scenarios are endless and the stress of searching for solutions often seems overwhelming.

Feinberg Consulting can provide the answers you are seeking...and the peace of mind you deserve.

Our family to yours...

Since 1996, Feinberg Consulting's compassionate team of registered and certified rehabilitation nurses, certified case managers, social workers, psychologists, vocational rehabilitation consultants and educational experts have partnered with over 1,000 families to significantly reduce the strain, anxiety and uncertainties of caring for loved ones who are elderly, injured, ill, disabled, incapacitated, or mentally and emotionally challenged. We are a trusted friend. A confidante whom families know they can count on. A liaison who coordinates care. An unwavering advocate for both you and your entire family.

- Cost containment
- Crisis management
- Medical care and treatment coordination
- Insurance and benefits claims assistance
- Life care planning
- Community safety evaluations

Whatever your loved one's stage of life or specific short or long term circumstances, we are only a phone call away.

Ways we assist you...

ELDER CARE SERVICES

We will work closely with your family to develop a comprehensive program for your aging loved one that offers you peace of mind and a support system you can rely on. Our efforts are guided by one primary vision: to enable your elderly family member to live as independently as possible in a safe environment, while maintaining dignity, respect and quality of life. Feinberg Consulting will complete an initial consultation as well as an in-person assessment and then develop an individualized written care plan. Ongoing care management can then be provided and may include:

- Reviewing health status and medical needs
- Assessing nutritional needs and social functioning
- Identifying safety issues, physical and mental limitations
- Reviewing living environment, support systems and overall quality of life
- Identifying optimal housing options
- Easing the transition to assisted living or nursing homes
- Coordinating transportation
- Locating community resources
- Arranging care services, medical supplies and equipment
- Planning discharge assistance from hospital or nursing facilities
- Assisting with Medicare appeals
- Maintaining physician appointments and medical records
- Communicating with family members
- Monitoring client's capabilities and functions
- Counseling for families

CATASTROPHIC CARE SERVICES

While it's impossible to anticipate a short-term injury, illness, catastrophic accident or other life-changing occurrence, Feinberg Consulting can react immediately to your family's unexpected crisis and coordinate services which may include:

- Medical and rehabilitation treatment
- Vocational rehabilitation
- Disability management of Workers' Compensation
- Educational services
- Social Security disability benefits and Medicare applications
- Long-term care and medical benefits
- Assistance with community reintegration

EDUCATIONAL SERVICES

Your children mean the world to you...and to us. Feinberg Consulting can offer specialized assistance for children of all ages (infancy through college) with special needs. They deserve the best care...and we are committed to helping you secure it for them. We act as a liaison for you and your child's rehabilitation team, medical providers and school. We also assist with the proper educational and environmental placement of your student. We can help you research and obtain specialized services within your child's school district, while monitoring your child's progress in the classroom and providing detailed monthly reports. By utilizing available school services, Feinberg Consulting can play an instrumental role in containing costs.

VOCATIONAL REHABILITATION SERVICES

So much of an individual's self-worth and personal pride comes from their sense of contributing to society. Our vocational rehabilitation consultants evaluate clients who have been injured to determine their ability to work. We collaborate closely with individuals, their physicians and employers to develop rehabilitation plans with the goal of facilitating a return to the workforce. By carefully exploring a wide variety of options, we are able to help clients return to a former position, assess how their current skills can be utilized in a different capacity, and support them through career counseling and guidance.

Circumstances often change...

We remain flexible, willing and able to alter the services your loved one receives as their physical, mental and emotional needs evolve. We fully understand that the best interest of your family member is your main concern. We want you to know that their best interests are our top priority as well.
